

NOV 08 2010

To explain what I'm trying to show on the next page, of course Ag is in the center, it has numerous spokes connecting to the outer circles.

Each of the outer circles are all part of agriculture, also each of these circles have their own, which are not included in the printing, including: medical, housing, banks, and so on.

If the new TMDL affects agriculture, it will affect the economic's structure of the U.S.A.

My concern is that it be understood the impact this will have on a major portion of the economic field.

If there are any questions feel free to call: 540-867-5378

Sincerely,

*Eddy Wines*
